

Azusa Rock Project

A Better Tomorrow

June 3, 2009

Dear Neighbor,

As you may know, Vulcan Materials Company owns and operates Azusa Rock in the City of Azusa. Our Azusa Rock operation produces aggregate materials used to construct highways, homes, hospitals, schools and other important infrastructure projects essential to our quality of life in Southern California.

In order to visually improve our current operations, Vulcan Materials recently submitted a new plan to the City that will dramatically improve the appearance of all current and future activities.

We would like to invite you to Fish Canyon Open Access Day and an interactive Open House to learn more about our new plan.

Saturday, June 13, 2009
Open House: 9:00 a.m. to 11:00 a.m.
Fish Canyon Open Access: 7:00 a.m. to 3:00 p.m.

Azusa Rock, Fish Canyon Trailhead
3901 Fish Canyon Road, at the end of Encanto Parkway

Complimentary parking and shuttle service will be provided

Fish Canyon Open Access Day is a great opportunity to explore the Angeles National Forest and a trail that leads to one of the most beautiful waterfalls in the region.

The Open House will highlight the benefits of the new plan and provide opportunities to answer your questions. We are confident that you will see how the new plan will ensure long-term benefits for our community.

If you plan to attend and/or have any questions about the Open House and Open Access Day, please contact Atisthan Roach at (626) 633-4238 or roacha@vmcmail.com.

We look forward to seeing you on June 13th.

Sincerely,

Jim Gore
Project Manager
Vulcan Materials Company
