

Azusa Rock Project

A Better Tomorrow

July 14, 2009

Dear Neighbor,

As you may know, Vulcan Materials Company owns and operates Azusa Rock in the City of Azusa. Our Azusa Rock operation produces aggregate materials used to construct highways, homes, hospitals, schools and other important infrastructure projects essential to our quality of life in Southern California.

In order to visually improve our current operations, Vulcan Materials recently submitted a new plan to the City that will dramatically improve the appearance of all current and future activities. As part of our series of events throughout the community, we invite you to an interactive Open House to learn about the new plan and the benefits for the Azusa community.

**Tuesday, July 28, 2009
6:30 to 8:00 p.m.**

**Rivers and Mountains Conservancy
"El Encanto"
100 North Old San Gabriel Canyon Road
Azusa, CA 91702**

Refreshments will be served

The evening will highlight the changes in the proposed plan and provide opportunities to answer your questions.

We are confident that you will see how the new plan will provide an enhanced operation at Azusa Rock and long-term benefits for our community.

If you plan to attend and/or have any questions about the event, please contact Susana Gonzalez at (323) 474-3332 or gonzalezs@vmcmail.com.

We look forward to seeing you on July 28th.

Sincerely,

Jim Gore
Project Manager
Vulcan Materials Company
