

4.10.3 Impacts and Mitigation Measures

Thresholds of Significance

The City of Azusa Initial Study Checklist is utilized to identify the primary thresholds of significance relating to CEQA issues. Therefore, the Proposed Project would have a significant effect on Recreation if it would:

- REC-1: Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?
- REC-2: Does the project include recreational facilities or require the construction or expansion of recreational facilities which have an adverse physical effect on the environment?

Project Design Features

The Proposed Project will implement and comply with all applicable standards and policies related to recreation as discussed in this section.

The recorded easement for the existing trail located on the Project Site specifies that Azusa Rock retains the right to relocate the trail on-site and reconstruct a comparable or better trail for the City of Duarte. Approval of the Proposed Project will result in the relocation and construction of a new trail of comparable or better quality for continued use by trail enthusiasts.

4.10.4 Recreation Issues Identified to Have No Impacts

Based upon the City's Initial Study, the following potential impacts were found to have no impact:

- REC-1: Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?**

The Proposed Project includes revisions to the existing CUP and Reclamation Plan for the Azusa Rock Quarry. ~~No increase in the rate of production is proposed.~~ No new jobs will be created that would increase the City's population requiring additional recreational area. Therefore no impact would result.

Mitigation: No Mitigation Required

4.10.5 Recreation Impact Analysis

The City of Azusa Initial Study Checklist is utilized to identify the primary thresholds of significance relating to CEQA issues. Therefore, the Proposed Project would have a significant effect on Recreation if it would:
